The associated guarantees may be returned to the tenderers on request. No liability can be accepted for late delivery of tenders. Late tenders will be rejected and will not be evaluated.
20. **Evaluation of tenders**

20.1. **Examination of the administrative conformity of tenders**

The aim at this stage is to check that tenders comply with the essential requirements of the tender dossier. A tender is deemed to comply if it satisfies all the conditions, procedures and specifications in the tender dossier without substantially departing from or attaching restrictions to them.

Substantial departures or restrictions are those which would affect the scope, quality or implementation of the contract, differ widely from the terms of the tender dossier, limit the rights of the Community or the tenderer's obligations under the contract or distort competition for tenderers whose tenders do comply. Decisions to the effect that a tender is not technically compliant must be duly justified in the evaluation minutes.

If a tender does not comply with the tender dossier, it will be rejected immediately and may not subsequently be made to comply by correcting it or withdrawing the departure or restriction.

20.2. **Detailed evaluation**

After analysing, the tenders deemed to comply in administrative terms, the evaluation committee will rule on the technical compliance of each tender, classifying it as technically compliant or non-compliant.

20.3 To facilitate the examination, evaluation and comparison of tenders, the evaluation committee may ask each tenderer individually for clarification of his tender, including breakdowns of prices. The request for clarification and the response must be in writing only, but no change in the price or substance of the tender may be sought, offered or permitted except as required to confirm the correction of arithmetical errors discovered during the evaluation of tenders. Decisions to the effect that a tender is not technically compliant must be duly justified in the evaluation minutes.

20.4 **Financial evaluation**

   a) Tenders found to be technically compliant shall be checked for any arithmetical errors in computation and summation. Errors will be corrected by the evaluation committee as follows:

   - Where there is a discrepancy between amounts in figures and in words, the amount in words will prevail;

   - except for lump-sum contracts, where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will prevail.

   b) Amounts corrected in this way will be binding on the tenderer. If the tenderer does not accept them, his tender will be rejected.

20.5 **Award criteria**

The award criteria will be the quality, delivery times, after sales services, warranty and price. The contract will be awarded to the lowest compliant tender.

21. **Signature of the contract and performance guarantee**

21.1 Within 30 days of receipt of the contract already signed by the Community, the selected tenderer must sign and date the contract and return it to the Community. On signing the contract, the successful tenderer will become the Contractor and the contract will enter into force.

21.2 If he fails to sign and return the contract and any financial guarantee required within 30 days after receipt of notification, the Community may consider the acceptance of the tender to be cancelled without prejudice to the Contracting Authority's right to seize the guarantee, claim compensation or pursue any other remedy in respect of such failure, and the successful tenderer will have no claim whatsoever on the Contracting Authority.
23. **Ethics clauses**

23.1. Any attempt by a candidate or tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the committee or the Community during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of its candidacy or tender and may result in administrative penalties.

23.2. Without the Community’s prior written authorisation, a Contractor and his staff or any other company with which the Contractor is associated or linked may not, even on an ancillary or subcontracting basis, supply other services, carry out works or supply equipment for the project. This prohibition also applies to any other projects that could, owing to the nature of the contract, give rise to a conflict of interest on the part of the Contractor.

23.3. When putting forward a candidacy or tender, the candidate or tenderer must declare that he is affected by no potential conflict of interest and has no particular link with other tenderers or parties involved in the project. Should such a situation arise during performance of the contract, the Contractor must immediately inform the contracting authority.

23.4. The Contractor must at all times act impartially and as a faithful adviser in accordance with the code of conduct of his profession. He must refrain from making public statements about the project or services without the contracting authority’s prior approval. He may not commit the Community in any way without its prior written consent.

23.5. For the duration of the contract the Contractor and his staff must respect human rights and undertake not to offend the political, cultural and religious mores of the beneficiary state.

23.6. The Contractor may accept no payment connected with the contract other than that provided for therein. The Contractor and his staff must not exercise any activity or receive any advantage inconsistent with their obligations to the contracting authority.

23.7. The Contractor and his staff are obliged to maintain professional secrecy for the entire duration of the contract and after its completion. All reports and documents drawn up or received by the Contractor are confidential.

23.8. The contract shall govern the Contracting Parties' use of all reports and documents drawn up, received or presented by them during the execution of the contract.

23.9. The Contractor must refrain from any relationship likely to compromise his independence or that of his staff. If the supplier ceases to be independent, the Community may, for any injury it suffers as a result, terminate the contract without further notice and without the supplier having any claim to compensation.

23.10. The Community reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process and if the Community fails to take all appropriate measures to remedy the situation. For the purposes of this provision, "corrupt practices" are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or implementation of a contract already concluded with the contracting authority.

23.11. Any tender will be rejected or contract terminated if it emerges that the award or execution of a contract has given rise to unusual commercial expenses.

23.12. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a recipient who is not clearly identified or commissions paid to a company which has every appearance of being a front company.

23.13. The Contractor must undertake to supply the Community on request with all supporting documents relating to the conditions of the contract's execution. The Community may carry out whatever documentary or on-the-spot checks it deems necessary to find evidence in cases of suspected unusual commercial expenses.

23.14. Contractors found to have paid unusual commercial expenses on projects funded by the Community are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving Community funds.

24. **Cancellation of the tender procedure**

In the event of cancellation of the tender procedure, tenderers will be notified of the cancellation by the contracting authority. If the tender procedure is cancelled before the outer envelope of any tender has been opened, the sealed envelopes shall be returned, unopened, to the tenderers.

Cancellation may occur where:

- the tender procedure has been unsuccessful, i.e. where no qualitatively or financially worthwhile tender has been received or there has been no response at all;
• the economic or technical parameters of the project have been fundamentally altered;
• exceptional circumstances or force majeure render normal performance of the project impossible;
• all technically compliant tenders exceed the financial resources available;
• There have been irregularities in the procedure, in particular where these have prevented fair competition.

In no event shall the Community be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender even if the Community has been advised of the possibility of damages. The publication of a procurement notice does not commit the Community to implement the programme or project announced.

20.1. Any attempt by a candidate or tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the committee or the Community during the process of examining, clarifying, evaluating and comparing tenders shall lead to the rejection of his candidacy or tender.

20.2 Without the contracting authority's prior written authorisation, a Contractor and his staff or any other company with which the Contractor is associated or linked may not, even on an ancillary or subcontracting basis, supply other services, carry out works or supply equipment for the project.

20.3 This prohibition also applies to any other programmes or projects that could, owing to the nature of the contract, give rise to a conflict of interest on the part of the Contractor.

20.4 When putting forward a candidacy or tender, the candidate or tenderer shall declare that he is affected by no potential conflict of interest and has no particular link with other tenderers or parties involved in the project. Should such a situation arise during performance of the contract, the Contractor must immediately inform the contracting authority.

20.5 The Contractor must at all times act impartially and as a faithful adviser in accordance with the code of conduct of his profession. He shall refrain from making public statements about the project or services without the contracting authority's prior approval. He may not commit the Community in any way without its prior written consent.
